The **Pro/ENGINEER Wildfire 3.0 Multimedia Trainer** DVD is an initiative by CADCIM Technologies aimed at simplifying the learning of Pro/ENGINEER Wildfire 3.0. It is a computer-based multimedia system for learning Pro/ENGINEER Wildfire 3.0 and contains step-by-step illustrations for creating solid models, sheetmetal models, surface models, assemblies, and detailed drawings. All the files on the DVD can be played in the Windows Media Player installed on your computer.

The steps to access the files on the DVD are as follows:
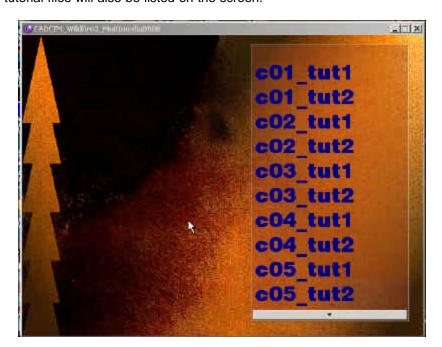

1. Insert the Pro/ENGINEER Wildfire 3.0 Multimedia Trainer DVD into the DVD-ROM.

2. The DVD will play automatically and the "CADCIM Technologies_Wildfire3_Multimedia0906" screen will be displayed, as shown below. All the tutorial files will also be listed on the screen.

Note:
If the DVD does not run automatically, browse to the DVD ROM drive on your computer and double-click on it; the content of the DVD will be displayed. Now, click on the CADCIM_Wildfire3_Multimedia0906 file to display the screen as shown above.

3. Click on the tutorial you want to open; the tutorial will start in the Windows Media Player.

Note: The file size of the tutorial is between 30 MB to 70 MB. It may take a few minutes before the files start playing.

The following table lists the file sizes and the playing time.

About CADCIM

The team at CADCIM Technologies, under the leadership of *Professor Sham Tickoo, Purdue University Calumet, USA*, consists of engineering professionals, experienced authors, and editors who have extensive experience in CAD/CAM, manufacturing, design engineering, and education. CADCIM Technologies is one of the world's leading providers of quality CAD/CAM textbooks. It also provides free teaching and learning resources to faculty and students. Working with the mission of providing reliable, cost-effective and competitive engineering solutions to the manufacturing industry, the company has established an unrivalled market worldwide through its textbooks on CAD/CAM software such as NX, CATIA, Solid Edge, SolidWorks, Pro/ENGINEER Wildfire, Edge CAM, Autodesk Inventor, Autodesk Revit Building, and AutoCAD LT. Apart from being well appreciated for the simplicity of content, clarity of style, and the in-depth coverage of subject, the textbooks published by CADCIM have been translated in many languages including Italian, Japanese, Chinese, Serbian, and Russian.

Online Training

CADCIM Technologies offers effective and affordable online training on Computer Aided Design and Manufacturing (CAD/CAM) delivered via internet at any time, any place, and at any pace to individuals, students of colleges, universities, CAD/CAM training centers, and corporate businesses.

The CAD/CAM Engineers at CADCIM Technologies take advantage of the benefits of the Internet to turn the concept of virtual teaching into reality. **The online training initiative** of CADCIM Technologies answers the challenges of globalization and new technologies by addressing specific CAD/CAM training needs of colleges, universities, training centers, and corporate businesses, through customized and cost-effective online training.
